Hughes Net Awaiting Review

- LW Larry Wright
- **Forum name:** #Suggestion

PIA and Hughes Satellite Internet Service. PIA doesn't work well with Hughes Net. Pages and internet load extremely slow. It's much slower than standard D.S.L. Doesn't matter what location I chose. It's all very slow. I don't think there is a fix for this. As a result, I doubt if I will continue PIA after current subscription expires. Just thought I'd let you know.
