Does Private Internet Access Donate To The EFF?

Travis - 2021-03-15 - Frequently Asked Questions

Yes, Private Internet Access donates to the EFF.

The Electronic Frontier Foundation (EFF) is an international non-profit digital rights group founded almost 25 years ago, promoting computer and Internet-related civil liberties. The EFF began to promote and protect hacker's rights but then became about the digital civil liberties of everybody.

The EFF fights for freedom primarily in the courts, bringing and defending lawsuits even when that means taking on governments or large corporations. The EFF is a donor-funded nonprofit and depends on support to continue successfully defending digital rights.

As Private Internet Access shares a range of views that are compatible with the EFF, we donate each month to ensure that they are able to continue the fight for the freedom and security of all people.

If you would like to support the Electronic Frontier Foundation as well, you can [donate directly](#) or read other ways in which you can [support the EFF](#).
