How do I Uninstall/ Reinstall the PIA App on my mobile device (iOS/Android)?

- 2022-03-21 - Installation

Uninstalling and reinstalling the PIA VPN software can resolve a lot of issues that can occur with the VPN. For users using our client on their iOS or Android devices, we have provided detailed guides on how to Uninstall and reinstall our application on both devices.

For instructions on how to Install our client on to your mobile devices please review the following Guides:

[iOS - Installing the PIA App](#)

[Android - Installing the PIA App](#)

For instructions on how to uninstall our client on your mobile devices please review the following guides:

[iOS - Uninstall the PIA Client](#)

[Android - Uninstalling and Reinstalling the PIA App](#)

If you encounter any issues following the installation guides for your mobile devices, please contact our support team [here](#).
