

What Payment Methods Do You Accept?

- 2024-05-01 - Payments

We accept various payment methods that are subject to automatic renewal according to the subscription terms you choose (eg. monthly, yearly, etc.)

Customers that are interested in recurring subscription (automatically drafted payments) should consider using one of the following payment options:

- **Credit Card**
- **PayPal**
- **Amazon**
- **Google Play (through our Android app only)**
- **Apple/iTunes**

Customers that are interested in non-recurring subscriptions (one-time purchase), should consider the following payment options:

- **Crypto**
- **Paygarden (Supported US Gift Cards)**
- **iDeal**

The above non-recurring payment methods can only renew through a special link sent via email. If no action is taken, the account will automatically terminate at the end of the 11 day grace period following the due date.

You can also pay for a subscription with a prepaid Visa/Mastercard. However, you will need to register the card first. As purchasing with prepaid card processes differently within our system, you must register it 24 hours in advance before the card can be accepted.

Another way to use a prepaid card is to add it to your PayPal or Amazon account. You will then be opting to use the prepaid card as a funding source for these payment processors. This should allow you to use that card to pay for your subscriptions without needing to register it.

You may purchase a subscription via our pricing page [here](#), or through the [Google Play Store](#) (on Android) and [Apple/iTunes Store](#) (on iOS).

If you experience any issues with purchasing a subscription or have any questions regarding our service or subscription terms please contact our Customer Service support

team [here](#).
