## 50 New Reasons to Celebrate with PIA this July 4th!

2022-07-01 - Devin S - Announcements

Celebrate American Independence with our 4th of July deal! For a limited time only, you can subscribe to PIA at a discounted rate and obtain a 3-year subscription for \$79 and get an additional 3 months for free! You can take advantage of this deal by visiting the [Buy Now](#) page on our website!

With July 4th on the horizon, we believe the best way to celebrate this holiday, is to be in the United States of America. This being the case, we are proud to announce that we now offer a server location in all 50 states! Comprised of Physical servers and Virtual servers, we've given PIA users over 35 new server locations to choose from. You can view all the new additions on the [Server](#) page within our website!

We believe everyone in the US should have a right to privacy, regardless of the state they are in. Offering at least one server location in every state makes online privacy possible for people across the US seeking it. If you have any questions regarding these new additions or need assistance with your VPN client, one of our [Support Agents](#) would be more than happy to help! We hope you have a happy holiday and enjoy the fireworks!
