Cloudflare Outage - June 21st

2022-06-21 - Devin S - Announcements

You may have noticed your inability to connect to some of our services. At 11:27pm MST on June 20th, 2022, Cloudflare services suffered an outage that affected the traffic of 19 of their data centers. PIA being affected by this; you may have been unable to use some of our services as late as 2:00am on June 21st. This is believed to be resolved by Cloudflare and an official statement was released, which can be found [here](#).

Although at times we are unable to control these instances, our team strives to keep our users informed and up to date. We apologize for the inconvenience this may have caused you and hope that our users who were affected by this are now able to browse the web seamlessly and anonymously.

If you have any questions regarding this instance, or need assistance with your VPN client, do not hesitate to reach out to our [support team](#). We are more than happy to help!
