Desktop Client - 3.3.1 Release

2022-04-06 - Devin S - Announcements

We have released a new version of our Desktop Client (3.3.1)! In this release, our development team has included the option to provide us with feedback regarding our service through a Survey notification within the VPN client. This survey option is now available for all platforms, including our mobile applications.

As always, if you run into any issues installing the update or using our service, our Support Team would be more than happy to assist with addressing your needs! Whether through our 24/7 [Live Chat Support](#) or our [Ticketing system](#), we want to ensure anonymity for all users seeking it!
