# Mobile Application - 3.12.0 Release

2021-07-15 - Devin S - Announcements

We are proud to introduce 3.12.0 of our mobile application! With hard work from our Mobile Development Team, you can find the features and improvements that were implemented below!

- New branding icons and graphics

- New Settings UI

- New WireGuard library version

- Small Packets (MTU) selection for WireGuard and IKEv2

- Improvements in the Automation library

- Connection stats can be sent to PIA on an opt-in basis to help improve our service

At any time, if you have questions regarding the new release or need assistance, our CS team would be more than happy to help! You can get in touch with them through our 24/7 Live Chat Support or through our Ticketing System.
