Mobile Application - 3.16.0 Release

2022-05-03 - Devin S - Announcements

Version 3.16.0 of our application is now available for Android! Within this version of the mobile application, you may notice that we have addressed a bug that was causing the VPN's connection to drop. Along with other minor bug fixes, you will find that we have adjusted the purchasing page within FireTV devices, so that the prices of subscriptions are accurately displayed.

As always, if you run into any issues installing the update or using our service, our Support Team would be more than happy to assist with addressing your needs! Whether through our 24/7 [Live Chat Support](#) or our [Ticketing system](#), we want to ensure anonymity for all users seeking it!
