[RESOLVED]Server Outage - April 19th

2022-04-19 - Devin S - Announcements

We've been experiencing network issues in our **Macedonia** and **Bulgaria** server locations. While both server options are currently down, we urge users to use alternative server locations while we address this outage.

Although we do not have an ETA for when this will be resolved, we plan on keeping our users informed and up to date. Please feel free to reach out to one of our [support agents](#) if you have any questions or concerns.
