[Resolved] Server Outage - July 4th

2022-07-04 - Devin S - Announcements

While using the VPN client, you may have noticed connection issues while using our **Indonesia** server location. We are currently experiencing issues with this server location that our team is actively investigating. Unfortunately, we do not have an ETA for when this will be resolved, but we intend to keep our users updated. If you are impacted by the issues with our Indonesia server location, we recommend connecting to an alternative server temporarily.

At any time, if you have any questions or concerns, please feel free to reach out to us by submitting a [support ticket](#) or by taking advantage of our [24/7 Live Chat support](#)! We apologize for any inconvenience this may cause but hope to have things sorted out as soon as possible.
