[Resolved] Server Outage - June 27th

2022-06-27 - Devin S - Announcements

We are currently experiencing an outage that has left the **Kazakhstan, Turkey, Georgia,** and **Armenia** server locations unavailable. While our team investigates this and works to bring these locations back online, we recommend connecting to an alternative server location for the time being. We currently do not have a time frame for when these servers will be an available option again, but we do appreciate your patience while this is being addressed.

If you have any questions or concerns, you can get in touch with us by submitting a [support ticket](#) or by using our [24/7 Live Chat](#) service. We apologize for any inconvenience this may cause you and hope to have these locations available soon.
