## We are Growing!

2022-01-20 - Devin S - Announcements

We are proud to announce that we've added new server locations! While using our service, you will now be able to encrypt your connection & be displayed in 83 different countries including the following new additions:

Chile

Malaysia

Indonesia

Colombia

Costa Rica

With some of these locations being highly suggested by our users, we urge users to continue to provide us with suggestions on features and server locations they would like to see in the future. You can reach out to us at any time using the [Helpdesk](#) on our website.
